

Tech Sales Portal: Implementation Guide

Here's how we get your team up and running with Tech Sales Portal in just 48 hours. No technical setup required on your end — we handle everything.

Day 1: We Set Up Your Portal

- Your branded subdomain is created
- Your mobile-friendly lead form is customized
- Unique QR codes are generated for each location or tech route

Day 2: Dashboard + Alerts Activated

- We configure your real-time Google Sheets lead dashboard
- Lead alerts are routed to your assigned sales managers or service coordinators

Day 3: You're Ready to Launch

- QR codes are printed or placed in technician binders/vehicles
- Your techs begin submitting upsell leads from the field
- Managers start tracking leads by tech, time, and job location

Go Live in 48 Hours or Less

We handle everything behind the scenes. All we need from you is your logo and your contact preferences.
